

# SPF UK Climate Resilience Programme

Webinar Series 2021

UK Research  
and Innovation

# Timing today

<b>12:00</b>	<b>UK Climate Resilience Programme news</b>	<b>Professor Suraje Dessai,</b> UK Climate Resilience Champion
<b>12.05</b>	<b>Seeking water resource resilience at national, regional and landscape scales in England and Wales</b>	<b>Professor Julien Harou,</b> University of Manchester
<b>12.30</b>	<b>Response</b>	<b>Steve Moncaster,</b> Water Resources East
<b>12.40</b>	<b>Q&amp;A and discussion</b>	<b>Panellists</b>
<b>13.00</b>	<b>End</b>	

Website: <https://www.ukclimateresilience.org/>

# How to engage

- Presentations first then Q&A and discussion
- Post questions in the Q&A box at any time
- Upvote your favourites
- Attendees will remain muted unless enabled to speak by the host
- Webinar (audio and slides) will be shared after the event
- Technical problems – chat

**Please note:** this webinar is being recorded

- Climate Adaptation Summit 2021 (25-26 Jan): online worldwide summit hosted by the Netherlands, convening global leaders and local stakeholders: <https://www.cas2021.com/>
- UK launched the Adaptation Action Coalition: a new international coalition to tackle the impacts of climate change
- UN High-Level Climate Champions' Race To Resilience campaign: <https://racetozero.unfccc.int/race-to-resilience/>

## Programme news

Met Office  
hackathon  
Two-day  
virtual event  
16-17 March  
2021

Aims to build society's resilience to climate change by exploring fresh ways to visualise climate data such as UK Climate Projections (UKCP) and how to combine it with other types of data to produce new and innovative tools.

The focus is on 3 key themes: Marine and Coastal; Nature Based Solutions; Sustainable Development at Home and Abroad.

The most relevant outputs will have the opportunity to be showcased at COP26.

To register your interest, email [cop26@metoffice.gov.uk](mailto:cop26@metoffice.gov.uk) with the subject 'Met Office Hackathon – Keep Me Informed' and include the name of the organisation you represent and which theme or combination of themes you are most interested in.

# Seeking water resource resilience at national, regional and landscape scales in England and Wales

Professor Julien Harou, University of Manchester

UK Research  
and Innovation

# Response

Steve Moncaster, Water Resources East

# Questions, answers, discussion
